

0.5mm Pitch Low-Profile Board-to-Board/Board-to-FPC Connector

DF23 Series

Low profile - 1.5 mm board-to-board distance

q Board-to-Board Application

q Board-to-FPC Application

Features

1. Low Profile

The 1.5 mm board-to-board distance makes these connectors ideal for limited space applications.

2. Large variety of Number of Contacts

Available with 10, 14, 16, 18, 20, 30, 40, 50, and 60 contacts.

Connectors with 10 to 20 contacts are ideal for use in small LCD connections in cellular phones, PDA's, video equipment, photo cameras and miniature of other devices requiring reliable connections in a small spaces.

3. Click Sensation

Positive click sensation when completely mated confirms correct insertion and connection of all contacts.

4. High Contact Reliability

Although connectors are low profile, the female contacts maintain reliable spring force assuring secure electrical contact.

5. Large Self-alignment

The large range of alignment of 0.3 mm allows for smooth insertion.

6. Board placement with Automatic Equipment

Flat surfaces allows placement of embossed tape packaged connectors with vacuum nozzles.

Versions with positioning bosses are available Hirose for specifics.

High Contact Reliability

Large Self-alignment

Applications

Mobile phones, PDA's, notebook PC's, digital cameras and other miniature devices.

s Product Specifications

Ratings	Current rating	0.3A	Operating temperature range	-35? to 85? (Note 1)	Storage temperature range	-10? to 60? (Note 2)
	Voltage rating	50V AC	Operating humidity range	-20% to 80%	Storage humidity range	-40% to 70% (Note 2)

Item	Specification	Condition
1. Insulation resistance	500M ohms min.	Measured at 100V DC
2. Withstanding voltage	No flashover or insulation breakdown	Conduction of 150V AC for 1 minute
3. Contact resistance	60m ohms max.	Measured at 100mA
4. Vibration	No momentary disconnections of 1 μs min	Frequency of 10 to 55 Hz, single amplitude of 0.75 mm, in 3 directions for 2 hours
5. Humidity resistance	Contact resistance of 60 m ohms max., insulation resistance of 250 M ohms min.	Temperature of 40 ? ± 2? , humidity of 90% to 95%, 96 hours
6. Temperature cycle	Contact resistance of 60 m ohms max., insulation resistance of 500 M ohms min.	(-55? : 30minutes / 5 to 35? : 10minutes / 85? : 30minutes / 5 to 35? : 10minutes) for 5 cycles
7. Durability	Contact resistance of 60m ohms max.	50 cycles (mating/unmating)
8. Resistance to reflow heat	No deformation of the insulator parts affecting performance	Reflow: At recommended temperature profile Manual soldering: Soldering iron temperature 300 ° C, for 3 seconds

Note 1: Includes temperature rise caused by the current flow.

Note 2: The term “ storage ” refers to products stored for long period of time prior to mounting and use. Operating Temperature Range and Humidity range covers non- conducting condition of installed connectors in storage, shipment or during transportation.

s Materials

Item	Part Material		Finish Remarks	
Receptacles	Insulator	LCP	Black	UL94V-0
Plugs	Contacts	Phosphor bronze	Gold plating	-----
